1. ELITE DEVELOPMENT PROGRAM (E.D.P.) OVERVIEW

The Elite Development Program will provide those athletes with exceptional skill, the opportunity to participate at a level of play that will further enhance their ringette™ abilities. The Elite Development Program is the responsibility of the Elite Development Committee. The Elite Development Program was initiated in 1988 to co-ordinate ORA's activities in preparing for, and competing in, the Canada Winter Games. Its mandate has since been expanded to include participation in all elite play events, such as the Canada Winter Games (C.W.G.), Ontario Winter Games (O.W.G.), and the World Championships. At that time Ringette™'s involvement in the C.W.G. shall be evaluated according to its success. It's continued participation will be determined at that time. In order to produce as many elite athletes as possible and also to build a strong base of highly skilled athletes the Elite Development Program will provide the opportunity for elite competition as detailed below:

- i. The Elite Development Program will run in four-year cycles culminating in the year of the Canada Winter Games (C.W.G.) event.
- ii. Each four year cycle will be broken down into two, two-year segments. The first two-year segment will be a preparatory phase to organize and select the representatives for Team Ontario to compete in the C.W.G. event. The second two-year segment will be a competitive phase during which Team Ontario will train, prepare and compete in exhibition games and tournaments. It will culminate with the Canada Winter Games in the final year.
- iii. The Elite Development Committee is responsible for ensuring elite Provincial All-Star Teams (Team Ontario) are organized, trained, and maintained to participate in National level competitions such as the Canada Games and other elite competitions such as the: "Ontario Cup", other Province's Provincial Teams' Invitational Tournaments, and/or other competitions as developed and approved by O.R.A. In addition, the Elite Development Committee is responsible for ensuring elite athletes are organized, trained and made ready to participate either as a team or as individuals in the World Championships or any qualifier Ringette Canada organizes for that event.
- iv. To assist in the selection of Team Ontario, the Ontario Winter Games competition will be used as a vehicle to evaluate players. To this end, each two year segment will consist of a one year Preparatory phase and a one year Competitive phase for Regional teams competing in the Ontario Winter Games. Each two-year segment is completed when the Regional Teams participate in the O.W.G. (March 2010, March 2012, etc.).
- v. Each of the six (6) geographical regions is responsible for organizing, training and maintaining an elite "squad" of athletes to participate on Regional All-

Star Team (R.A.T.) in elite competition such as the Ontario Winter Games and Regional Challenge Cup Tournaments.

- vi. The age group of Elite Teams, both Provincial and Regional, will be determined by the age requirement of the Elite Event to be attended such as the O.W.G., C.W.G., and International Competitions like the World Championships.

a. **Ontario Winter Games**

- i. Every two years the Ontario Winter Games is offered to all sports to apply for participation. Ringette™ has traditionally been selected as a participating sport by the O.W.G. Committee. The Elite Development Committee has the mandate to select the division to participate, taking into consideration: date, place, O.W.G. technical policies, competitive level and whether or not the O.W.G. will be used as a vehicle to select Team Ontario for the C.W.G.
- ii. The O.W.G. event in the first two-year segment of a four-year cycle will be one of several events used to evaluate players to be invited to selection sessions for Team Ontario for the next C.W.G. Therefore the age requirement and competitive level for O.W.G. will be based upon the age group for the next C.W.G.
- iii. Age group for the 2011 Canada Winter Games is U20, therefore the age for the 2010 Ontario Winter Games event will be U19
- iv. Tournament Format
 - Six (6) team full round robin
 - Team with highest points after round robin advance to championship game.
 - Teams with the second and third highest points advance to the semifinal game to determine the bronze medallist.
 - Team winning semifinal game advances to the championship game to determine the gold and silver medallists.
 - Shot clocks will be used in all games at the Ontario Winter Games.
 - All games will be two (2) twenty (20) minute periods.
 - Mini Games: Any tie which will result in a team not being able to participate in a medal game, will require mini-games to be played to determine who will participate in the medal game. e.g. three (3) teams

tied for second place, the breaking procedures determine second place, then a mini-game to eliminate a team from the proceedings.

- All games will be played until a winner is declared.
