NOTICE to the MEMBERS

Changes to Provincial Team Player Rosters after November 15th

Any player changes to a provincial team after the November 15th deadline, including new players and late registrations, need to be approved by both the Membership Services and G&T Committees.

Requests for exceptions to add provincial level players must be sent to your Regional MS Coordinator who will forward it to the Committee for their consideration.

Approval must be received before the requested player can play with the provincial level team.

These players are not to be added the Team Registration Form (TRF) using an Information Change Form. Upon approval of any additional player to a provincial team TRF, the MS Chair will notify the office who will add the player to the appropriate team.

This is **not** a change of procedures but clarifying the existing procedures that should be used.
